HEARING RESEARCH

Author Index

Arumäe, U., see Pirvola, U. (75) 131

Backoff, P.M., see Palombi, P.S. (75) 175
Batcher, S., see Housley, G.D. (75) 47
Berglund, A.M. and Brown, M.C.
Central trajectories of type II spiral ganglion cells from various cochlear regions in mice (75) 121
Brix, J., Fischer, F.P. and Manley, G.A.
The cuticular plate of the hair cell in relation to morphological gradients of the chicken basilar papilla (75) 244
Brown, M.C., see Berglund, A.M. (75) 121

Canlon, B., see Johnson, A.-C. (75) 201
Caspary, D.M., see Palombi, P.S. (75) 175
Chays, A., see Scharf, B. (75) 11
Cheatham, M.A. and Dallos, P.
Stimulus biasing: A comparison between cochlear hair cell and organ of corti response patterns (75) 103
Chole, R.A. and Tinling, S.P.
Bone lining cells of the mammalian cochlea (75) 233
Collet, L., see Froehlich, P. (75) 184
Collet, L., see Scharf, B. (75) 11
Curtis, L.M., see Ten Cate, W.-J.F. (75) 151

Dallos, P., see Cheatham, M.A. (75) 103
Duclaux, R., see Froehlich, P. (75) 184
Dunn, A., see Guth, P.S. (75) 225

Egg, G., see Kong, W.-J. (75) 191

Ferber, C., see Froehlich, P. (75) 184
Fischer, F.P., see Brix, J. (75) 244
Froehlich, P., Ferber, C., Remond, J., Jaboulay, J.M., Morgon, A., Duclaux, R. and Collet, L.
Lack of association between transiently evoked otoacoustic emission amplitude and experimentation linked-factors (repeated acoustic stimulation, cerebrospinal fluid pressure, supine and sitting positions, alertness level) (75) 184

Geal-Dor, M., see Sohmer, H. (75) 145
Gewalt, S.L., see Henson, M.M. (75) 75
Guth, P.S., Dunn, A., Kronomer, K. and Norris, C.H.
The cholinergic pharmacology of the frog saccule (75) 225

Harrison, R.V., see Takeno, S. (75) 93
Henson, Jr, O.W., see Xie, D.H. (75) 61
Henson, Jr., O.W., see Henson, M.M. (75) 75
Henson, M.M., Henson, Jr., O.W., Gewalt, S.L., Wilson, J.L. and Johnson, G.A.
Imaging the cochlea by magnetic resonance microscopy (75) 75
Henson, M.M., see Xie, D.H. (75) 61
Hosokawa, M., see Saitoh, Y. (75) 27
Housley, G.D., Batcher, S., Kraft, M. and Ryan, A.F.
Nicotinic acetylcholine receptor subunits expressed in rat cochlea detected by the polymerase chain reaction (75) 47
Hussl, B., see Kong, W.-J. (75) 191

Ibrahim, D., see Takeno, S. (75) 93

Jaboulay, J.M., see Froehlich, P. (75) 184
Johnson, A.-C. and Canlon, B.
Progressive hair cell loss induced by toluene exposure (75) 201
Johnson, G.A., see Henson, M.M. (75) 75

Klis, S.F.L. and Smoorenburg, G.F.
Osmotically induced pressure difference in the cochlea and its effect on cochlear potentials (75) 114
Kong, W.-J., Egg, G., Hussl, B., Spoendlin, H. and Schrott-Fischer, A.
Localization of chat-like immunoreactivity in the vestibular endorgans of the rat (75) 191
Kraft, M., see Housley, G.D. (75) 47
Kronomer, K., see Guth, P.S. (75) 225

Lonsbury-Martin, B.L., see Sutton, L.A. (75) 161

Magnan, J., see Scharf, B. (75) 11
Manley, G.A., see Brix, J. (75) 244
Martin, G.K., see Sutton, L.A. (75) 161
Middlebrooks, J.C., see Slattery III, W.H. (75) 38
Moody, D.B., see Niemiec, A.J. (75) 209
Morgon, A., see Froehlich, P. (75) 184
Moshnyakov, M., see Pirvola, U. (75) 131
Mount, R.J., see Takeno, S. (75) 93
Murakami, Y., see Saitoh, Y. (75) 27

Niemiec, A.J., Raphael, Y. and Moody, D.B.
Return of auditory function following structural regeneration after acoustic trauma: Behavioral measures from quail (75) 209
Norris, C.H., see Guth, P.S. (75) 225

Palgi, J., see Pirvola, U. (75) 131
Palombi, P.S., Backoff, P.M. and Caspary, D.M.
Paired tone facilitation in dorsal cochlear nucleus neurons: A short-term potentiation model testable in vivo (75) 175
Pirvola, U., Arumäe, U., Moshnyakov, M., Palgi, J., Saarma, M. and Ylikoski, J.
Coordinated expression and function of neurotrophins and their receptors in the rat inner ear during target innervation (75) 131
Popelář, J., see Syka, J. (75) 1

Raphael, Y., see Niemiec, A.J. (75) 209
Rarey, K.E., see Ten Cate, W.-J.F. (75) 151
Remond, J., see Froehlich, P. (75) 184
Ryan, A.F., see Housley, G.D. (75) 47

Saarma, M., see Pirvola, U. (75) 131
Saitoh, Y., Hosokawa, M., Shimada, A., Watanabe, Y., Yasuda, N., Takeda, T. and Murakami, Y.
Age-related hearing impairment in senescence-accelerated mouse (SAM) (75) 27
Salmelin, R., see Sams, M. (75) 67
Sams, M. and Salmelin, R.
Evidence of sharp frequency tuning in the human auditory cortex (75) 67
Scharf, B., Magnan, J., Collet, L., Ulmer, E. and Chays, A.
On the role of the olivocochlear bundle in hearing: A case study (75) 11
Schrott-Fischer, A., see Kong, W.-J. (75) 191
Shimada, A., see Saitoh, Y. (75) 27
Slapnick, S.M., see Sobkowicz, H.M. (75) 81
Slattery III, W.H. and Middlebrooks, J.C.
Monaural sound localization: Acute versus chronic unilateral impairment (75) 38
Smoorenburg, G.F., see Klis, S.F.L. (75) 114
Sobkowicz, H.M. and Slapnick, S.M.
The efferents interconnecting auditory inner hair cells (75) 81
Sohmer, H., Geal-Dor, M. and Weinstein, D.
Human fetal auditory threshold improvement during maternal oxygen respiration (75) 145
Spoendlin, H., see Kong, W.-J. (75) 191
Sutton, L.A., Lonsbury-Martin, B.L., Martin, G.K. and Whitehead, M.L.
Sensitivity of distortion-product otoacoustic emissions in humans to tonal over-exposure: Time course of recovery and effects of lowering L_2 (75) 161
Syka, J. and Popelář, J.
Modulation of thresholds to acoustical and electrical stimulation of the intact ear in guinea pig by furosemide and noise (75) 1

Takeda, T., see Saitoh, Y. (75) 27
Takeno, S., Harrison, R.V., Ibrahim, D., Wake, M. and Mount, R.J.
Cochlear function after selective inner hair cell degeneration induced by carboplatin (75) 93
Ten Cate, W.-J.F., Curtis, L.M. and Rarey, K.E.
Na,K-ATPase α and β subunit isoform distribution in the rat cochlear and vestibular tissues (75) 151
Tinling, S.P., see Chole, R.A. (75) 233

Ulmer, E., see Scharf, B. (75) 11

Wake, M., see Takeno, S. (75) 93
Walsh, M.E. and Webster, D.B.
Exogenous GM1 ganglioside effects on conductive and sensorineural hearing losses (75) 54
Watanabe, Y., see Saitoh, Y. (75) 27
Webster, D.B., see Walsh, M.E. (75) 54
Weinstein, D., see Sohmer, H. (75) 145
Whitehead, M.L., see Sutton, L.A. (75) 161
Wilson, J.L., see Henson, M.M. (75) 75

Xie, D.H., Henson, M.M. and Henson, Jr, O.W.
AChE-staining of type II ganglion cells, processes and terminals in the cochlea of the mustached bat (75) 61

Yasuda, N., see Saitoh, Y. (75) 27
Ylikoski, J., see Pirvola, U. (75) 131

Hearing Research 75 (1994) 261–264

HEARING RESEARCH

Subject Index

Acetylcholine
Saccule; Cholinergic; Frog; Afferent; Efferent (Guth, P.S. (75) 225)

Acetylcholine (ACh)
Choline acetyltransferase (ChAT); Immunocytochemistry; Light and electron microscopy; Vestibular sensory periphery (Kong, W.-J. (75) 191)

Acetylcholinesterase
Mustached bat; Type II ganglion cells; AChE (Xie, D.H. (75) 61)

AChE
Mustached bat; Type II ganglion cells; Acetylcholinesterase (Xie, D.H. (75) 61)

Afferent
Cochlear nucleus; Outer hair cells (Berglund, A.M. (75) 121)

Saccule; Cholinergic; Frog; Acetylcholine; Efferent (Guth, P.S. (75) 225)

Animal psychophysics
Regeneration; Recovery; Noise damage; Hair cells (Niemiec, A.J. (75) 209)

Attention
Transiently evoked otoacoustic emissions; Circadian rhythm; Cerebrospinal fluid pressure; Sleep; Time effect (Froehlich, P. (75) 184)

Auditory
Cochlea; Morphology; Ototoxicity; Outer hair cells; Phalloidin; Rats; SEM; Solvent (Johnson, A.-C. (75) 201)

Auditory brainstem response, ABR
Senescence-accelerated mouse, SAM; Presbycusis; Spiral ganglion (Saitoh, Y. (75) 27)

Auditory filters
Magnetoencephalography; MEG; Pitch; Evoked responses; Masking; Frequency selectivity (Sams, M. (75) 67)

Bird
Cochlea; Hair cell; Cuticular plate (Brix, J. (75) 244)

Bone
Cochlea; Bone lining cells; Calcium (Chole, R.A. (75) 233)

Bone lining cells
Cochlea; Bone; Calcium (Chole, R.A. (75) 233)

Calcium
Cochlea; Bone; Bone lining cells (Chole, R.A. (75) 233)

Carboplatin
Organ of Corti; Chinchilla; Cochlear action potentials; Cochlear microphonics (Takeno, S. (75) 93)

CBA/J mice
GM1 ganglioside; Spiral ganglion; Cochlear nuclei; Octopus cells; Globular cells; Spherical cells (Walsh, M.E. (75) 54)

Cerebrospinal fluid pressure
Transiently evoked otoacoustic emissions; Circadian rhythm; Sleep; Attention; Time effect (Froehlich, P. (75) 184)

Chinchilla
Carboplatin; Organ of Corti; Cochlear action potentials; Cochlear microphonics (Takeno, S. (75) 93)

Potentiation; DCN; Fusiform cell (Palombi, P.S. (75) 175)

Choline acetyltransferase (ChAT)
Acetylcholine (ACh); Immunocytochemistry; Light and electron microscopy; Vestibular sensory periphery (Kong, W.-J. (75) 191)

Cholinergic
Saccule; Frog; Acetylcholine; Afferent; Efferent (Guth, P.S. (75) 225)

Circadian rhythm
Transiently evoked otoacoustic emissions; Cerebrospinal fluid pressure; Sleep; Attention; Time effect (Froehlich, P. (75) 184)

Cochlea
Nicotinic acetylcholine receptor; Polymerase chain reaction; Efferent; cDNA; mRNA (Housley, G.D. (75) 47)

Magnetic resonance microscopy; MRI (Henson, M.M. (75) 75)

Auditory; Morphology; Ototoxicity; Outer hair cells; Phalloidin; Rats; SEM; Solvent (Johnson, A.-C. (75) 201)

Bone; Bone lining cells; Calcium (Chole, R.A. (75) 233)

Bird; Hair cell; Cuticular plate (Brix, J. (75) 244)

Cochlear action potentials
Carboplatin; Organ of Corti; Chinchilla; Cochlear microphonics (Takeno, S. (75) 93)

Cochlear hair cells
Cochlear potentials; Organ of Corti; Stimulus biasing; Two-tone suppression (Cheatham, M.A. (75) 103)

Cochlear microphonics
Carboplatin; Organ of Corti; Chinchilla; Cochlear action potentials (Takeno, S. (75) 93)

Osmolality; Summating potential; Compound action potential; Hydrops (Klis, S.F.L. (75) 114)

Cochlear nuclei
GM1 ganglioside; Spiral ganglion; Octopus cells; Globular cells; Spherical cells; CBA/J mice (Walsh, M.E. (75) 54)

Cochlear nucleus
Outer hair cells; Afferent (Berglund, A.M. (75) 121)

Cochlear potentials
Cochlear hair cells; Organ of Corti; Stimulus biasing; Two-tone suppression (Cheatham, M.A. (75) 103)

Cochleovestibular ganglion
Neurotrophic system; Neuritogenesis; Neuronal survival; Otic vesicle (Pirvola, U. (75) 131)

Compound action potential
Osmolality; Summating potential; Cochlear microphonics; Hydrops (Klis, S.F.L. (75) 114)

Cuticular plate
Bird; Cochlea; Hair cell (Brix, J. (75) 244)

DCN
Potentiation; Chinchilla; Fusiform cell (Palombi, P.S. (75) 175)

cDNA
Nicotinic acetylcholine receptor; Polymerase chain reaction; Cochlea; Efferent; mRNA (Housley, G.D. (75) 47)

Efferent
Nicotinic acetylcholine receptor; Polymerase chain reaction; Cochlea; cDNA; mRNA (Housley, G.D. (75) 47)

Saccule; Cholinergic; Frog; Acetylcholine; Afferent (Guth, P.S. (75) 225)

Efferent endings
Inner hair cells; Organ of Corti (Sobkowicz, H.M. (75) 81)

Efferent system
Olivocochlear bundle; Selective attention; Signal detection in noise; Ménière's disease (Scharf, B. (75) 11)

Electrical stimulation
Inner ear; Electrophonic effect; Guinea pig; Middle latency responses (Syka, J. (75) 1)

Electrophonic effect
Inner ear; Electrical stimulation; Guinea pig; Middle latency responses (Syka, J. (75) 1)

Endolymph microhomeostasis
Immunocytochemistry; Ion transport (Ten Cate, W.-J.F. (75) 151)

Evoked responses
Magnetoencephalography; MEG; Pitch; Masking; Auditory filters; Frequency selectivity (Sams, M. (75) 67)

Fetus
Threshold; Neonate; Oxygen; Sensori-neural (Sohmer, H. (75) 145)

$2f_1$–f_2 distortion-product otoacoustic emissions
Tonal over-exposure; Temporary-threshold shift; Susceptibility; Humans (Sutton, L.A. (75) 161)

Frequency selectivity
Magnetoencephalography; MEG; Pitch; Evoked responses; Masking; Auditory filters (Sams, M. (75) 67)

Frog
Saccule; Cholinergic; Acetylcholine; Afferent; Efferent (Guth, P.S. (75) 225)

Fusiform cell
Potentiation; Chinchilla; DCN (Palombi, P.S. (75) 175)

Globular cells
GM1 ganglioside; Spiral ganglion; Cochlear nuclei; Octopus cells; Spherical cells; CBA/J mice (Walsh, M.E. (75) 54)

GM1 ganglioside
Spiral ganglion; Cochlear nuclei; Octopus cells; Globular cells; Spherical cells; CBA/J mice (Walsh, M.E. (75) 54)

Guinea pig
Inner ear; Electrical stimulation; Electrophonic effect; Middle latency responses (Syka, J. (75) 1)

Hair cell
Bird; Cochlea; Cuticular plate (Brix, J. (75) 244)

Hair cells
Regeneration; Recovery; Noise damage; Animal psychophysics (Niemiec, A.J. (75) 209)

Head-related transfer function
Sound localization; Monaural hearing (Slattery III, W.H. (75) 38)

Humans
Tonal over-exposure; $2f_1$–f_2 distortion-product otoacoustic emissions; Temporary-threshold shift; Susceptibility (Sutton, L.A. (75) 161)

Hydrops
Osmolality; Summating potential; Compound action potential; Cochlear microphonics (Klis, S.F.L. (75) 114)

Immunocytochemistry
Endolymph microhomeostasis; Ion transport (Ten Cate, W.-J.F. (75) 151)

Acetylcholine (ACh); Choline acetyltransferase (ChAT); Light and electron microscopy; Vestibular sensory periphery (Kong, W.-J. (75) 191)

Inner ear
Electrical stimulation; Electrophonic effect; Guinea pig; Middle latency responses (Syka, J. (75) 1)

Inner hair cells
Efferent endings; Organ of Corti (Sobkowicz, H.M. (75) 81)

Ion transport
Endolymph microhomeostasis; Immunocytochemistry (Ten Cate, W.-J.F. (75) 151)

Light and electron microscopy
Acetylcholine (ACh); Choline acetyltransferase (ChAT); Immunocytochemistry; Vestibular sensory periphery (Kong, W.-J. (75) 191)

Magnetic resonance microscopy
Cochlea; MRI (Henson, M.M. (75) 75)

Magnetoencephalography
MEG; Pitch; Evoked responses; Masking; Auditory filters; Frequency selectivity (Sams, M. (75) 67)

Masking
Magnetoencephalography; MEG; Pitch; Evoked responses; Auditory filters; Frequency selectivity (Sams, M. (75) 67)

MEG
Magnetoencephalography; Pitch; Evoked responses; Masking; Auditory filters; Frequency selectivity (Sams, M. (75) 67)

Ménière's disease
Efferent system; Olivocochlear bundle; Selective attention; Signal detection in noise (Scharf, B. (75) 11)

Middle latency responses
Inner ear; Electrical stimulation; Electrophonic effect; Guinea pig (Syka, J. (75) 1)

Monaural hearing
Sound localization; Head-related transfer function (Slattery III, W.H. (75) 38)

Morphology
Auditory; Cochlea; Ototoxicity; Outer hair cells; Phalloidin; Rats; SEM; Solvent (Johnson, A.-C. (75) 201)

MRI
Cochlea; Magnetic resonance microscopy (Henson, M.M. (75) 75)

Mustached bat
Type II ganglion cells; Acetylcholinesterase; AChE (Xie, D.H. (75) 61)

Neonate
Threshold; Fetus; Oxygen; Sensori-neural (Sohmer, H. (75) 145)

Neuritogenesis
Neurotrophic system; Neuronal survival; Cochleovestibular ganglion; Otic vesicle (Pirvola, U. (75) 131)

Neuronal survival
Neurotrophic system; Neuritogenesis; Cochleovestibular ganglion; Otic vesicle (Pirvola, U. (75) 131)

Neurotrophic system
Neuritogenesis; Neuronal survival; Cochleovestibular ganglion; Otic vesicle (Pirvola, U. (75) 131)

Nicotinic acetylcholine receptor
Polymerase chain reaction; Cochlea; Efferent; cDNA; mRNA (Housley, G.D. (75) 47)

Noise damage
Regeneration; Recovery; Hair cells; Animal psychophysics (Niemiec, A.J. (75) 209)

Octopus cells
GM1 ganglioside; Spiral ganglion; Cochlear nuclei; Globular cells; Spherical cells; CBA/J mice (Walsh, M.E. (75) 54)

Olivocochlear bundle
Efferent system; Selective attention; Signal detection in noise; Ménière's disease (Scharf, B. (75) 11)

Organ of Corti
Efferent endings; Inner hair cells (Sobkowicz, H.M. (75) 81)

Carboplatin; Chinchilla; Cochlear action potentials; Cochlear microphonics (Takeno, S. (75) 93)

Cochlear hair cells; Cochlear potentials; Stimulus biasing; Two-tone suppression (Cheatham, M.A. (75) 103)

Osmolality
Summating potential; Compound action potential; Cochlear microphonics; Hydrops (Klis, S.F.L. (75) 114)

Otic vesicle
Neurotrophic system; Neuritogenesis; Neuronal survival; Cochleovestibular ganglion (Pirvola, U. (75) 131)

Ototoxicity
Auditory; Cochlea; Morphology; Outer hair cells; Phalloidin; Rats; SEM; Solvent (Johnson, A.-C. (75) 201)

Outer hair cells
Cochlear nucleus; Afferent (Berglund, A.M. (75) 121)

Auditory; Cochlea; Morphology; Ototoxicity; Phalloidin; Rats; SEM; Solvent (Johnson, A.-C. (75) 201)

Oxygen
Threshold; Fetus; Neonate; Sensori-neural (Sohmer, H. (75) 145)

Phalloidin
Auditory; Cochlea; Morphology; Ototoxicity; Outer hair cells; Rats; SEM; Solvent (Johnson, A.-C. (75) 201)

Pitch
Magnetoencephalography; MEG; Evoked responses; Masking; Auditory filters; Frequency selectivity (Sams, M. (75) 67)

Polymerase chain reaction
Nicotinic acetylcholine receptor; Cochlea; Efferent; cDNA; mRNA (Housley, G.D. (75) 47)

Potentiation
Chinchilla; DCN; Fusiform cell (Palombi, P.S. (75) 175)

Presbycusis
Senescence-accelerated mouse, SAM; Auditory brainstem response, ABR; Spiral ganglion (Saitoh, Y. (75) 27)

Rats
Auditory; Cochlea; Morphology; Ototoxicity; Outer hair cells; Phalloidin; SEM; Solvent (Johnson, A.-C. (75) 201)

Recovery
Regeneration; Noise damage; Hair cells; Animal psychophysics (Niemiec, A.J. (75) 209)

Regeneration
Recovery; Noise damage; Hair cells; Animal psychophysics (Niemiec, A.J. (75) 209)

mRNA
Nicotinic acetylcholine receptor; Polymerase chain reaction; Cochlea; Efferent; cDNA (Housley, G.D. (75) 47)

Saccule
Cholinergic; Frog; Acetylcholine; Afferent; Efferent (Guth, P.S. (75) 225)

Selective attention
Efferent system; Olivocochlear bundle; Signal detection in noise; Ménière's disease (Scharf, B. (75) 11)

SEM
Auditory; Cochlea; Morphology; Ototoxicity; Outer hair cells; Phalloidin; Rats; Solvent (Johnson, A.-C. (75) 201)

Senescence-accelerated mouse, SAM
Presbycusis; Auditory brainstem response, ABR; Spiral ganglion (Saitoh, Y. (75) 27)

Sensori-neural
Threshold; Fetus; Neonate; Oxygen (Sohmer, H. (75) 145)

Signal detection in noise
Efferent system; Olivocochlear bundle; Selective attention; Ménière's disease (Scharf, B. (75) 11)

Sleep
Transiently evoked otoacoustic emissions; Circadian rhythm; Cerebrospinal fluid pressure; Attention; Time effect (Froehlich, P. (75) 184)

Solvent
Auditory; Cochlea; Morphology; Ototoxicity; Outer hair cells; Phalloidin; Rats; SEM (Johnson, A.-C. (75) 201)

Sound localization
Monaural hearing; Head-related transfer function (Slattery III, W.H. (75) 38)

Spherical cells
GM1 ganglioside; Spiral ganglion; Cochlear nuclei; Octopus cells; Globular cells; CBA/J mice (Walsh, M.E. (75) 54)

Spiral ganglion
Senescence-accelerated mouse, SAM; Presbycusis; Auditory brainstem response, ABR (Saitoh, Y. (75) 27)

GM1 ganglioside; Cochlear nuclei; Octopus cells; Globular cells; Spherical cells; CBA/J mice (Walsh, M.E. (75) 54)

Stimulus biasing
Cochlear hair cells; Cochlear potentials; Organ of Corti; Two-tone suppression (Cheatham, M.A. (75) 103)

Summating potential
Osmolality; Compound action potential; Cochlear microphonics; Hydrops (Klis, S.F.L. (75) 114)

Susceptibility
Tonal over-exposure; $2f_1-f_2$ distortion-product otoacoustic emissions; Temporary-threshold shift; Humans (Sutton, L.A. (75) 161)

Temporary-threshold shift
Tonal over-exposure; $2f_1-f_2$ distortion-product otoacoustic emissions; Susceptibility; Humans (Sutton, L.A. (75) 161)

Threshold
Fetus; Neonate; Oxygen; Sensori-neural (Sohmer, H. (75) 145)

Time effect
Transiently evoked otoacoustic emissions; Circadian rhythm; Cerebrospinal fluid pressure; Sleep; Attention (Froehlich, P. (75) 184)

Tonal over-exposure
$2f_1-f_2$ distortion-product otoacoustic emissions; Temporary-threshold shift; Susceptibility; Humans (Sutton, L.A. (75) 161)

Transiently evoked otoacoustic emissions
Circadian rhythm; Cerebrospinal fluid pressure; Sleep; Attention; Time effect (Froehlich, P. (75) 184)

Two-tone suppression
Cochlear hair cells; Cochlear potentials; Organ of Corti; Stimulus biasing (Cheatham, M.A. (75) 103)

Type II ganglion cells
Mustached bat; Acetylcholinesterase; AChE (Xie, D.H. (75) 61)

Vestibular sensory periphery
Acetylcholine (ACh); Choline acetyltransferase (ChAT); Immunocytochemistry; Light and electron microscopy (Kong, W.-J. (75) 191)
